

GENERAL REQUIREMENTS FOR GRADUATE CERTIFICATES

UW-Platteville offers several graduate certificates. These certificates are distinct from the Master's degree, but credit earned for them might be applied toward the completion of the degree. To earn a certificate, students must complete all the required courses through the University of Wisconsin-Platteville, under the direction of the University of Wisconsin-Platteville faculty. Transferred courses or course substitutions are not allowed.

To obtain a graduate certificate, students must:

- Complete the certificate with a minimum GPA of 3.00
- Achieve a minimum grade of "C" in each course from the certificate program
- Request a certificate through their advisor within one year from completion of the final course of the certificate
