

HIGH SCHOOL SPECIAL, DUAL ENROLLMENT, AND EARLY COLLEGE CREDIT PROGRAM STUDENTS

Students currently enrolled in high school may apply to any of the UW-Platteville campuses for concurrent coursework. The University of Wisconsin-Platteville allows high school students to take college courses through the Early College Credit Program (ECCP) or as a High School Special student providing they meet the requirements for entry, receive necessary approval from their full time school district of attendance, and course availability. Application deadlines may be viewed on the High School Special Student webpage (<https://www.uwplatt.edu/high-school-special-students/>).

Early College Credit Program and High School Special students register after all UW-Platteville degree-seeking students have registered, therefore admission does not guarantee course availability for the specifically approved courses. Registration is on a space available basis. In addition, students may be required to take a UW System Placement Exam for English, mathematics or other prerequisites to be eligible to take some courses.

Early College Credit Program and High School Special students must abide by all regulations, policies and procedures of the university as outlined in the university catalog, semester timetable and official university documents. These include, but are not limited to, the university drop, withdrawal, tuition refund, grading and attendance policies. In addition, all students must comply with the rules set forth by instructors. Courses taken at UW-Platteville become a part of the student's permanent university record and may affect subsequent admission eligibility to postsecondary institutions.

High school students who wish to take university courses through the ECCP must receive approval through their school district.
