

COMPUTER SCIENCE MINOR

The minor provides sufficient flexibility to complement any major field of study. All required courses must be passed with a "C-" or better with a minimum cumulative G.P.A. of 2.00 in the courses. We suggest that students consult with a computer science advisor to plan a minor program.

Course	Title	Credits
Required Courses * (6 credits). All required courses must be passed with a C- or better.		
COMPUTER 1430	Introduction to Computer Programming	3
COMPUTER 2430	Object-Oriented Programming	3
Electives * (12 credits)		
Electives for the minor may be selected from any course in computer science or software engineering *2000 level or higher. At least 9 credits must be at the 3000 level. Anyone who is majoring in Software Engineering may not apply for a CS minor. No more than 9 credits can overlap with any major. Minimum cumulative GPA is 2.00.		12
